CHURCH CHATTER.

LANCASTER.

The General Conference of the M. E. Church, South, meets in Baltimore May 5.

The annual sermon to the Faculty and students of Stanford Female College will be preached on Sunday, June 5th, by Rev. J. K. Smith, of Richmond.

The fifth annual Conference of the Kentucky State Union of Epworth Leagues will be held at Lexington May 6, 7 and 8, and from present indications it will be the largest denominational gathering ever held in Kentucky.

There will be no services at the Baptist church Sunday. The pastor and a good many members will attend the delectatory services of the Preachersville church, the sermon for which will be preached by Rev. W. P. Harvey, of Louisville.

The Quarterly Conference for this district will convene at Danville this morning. The church delegates from here are Revs. W. S. Grinstead and J. M. Matthews and Dr. C. A. Cox; the Sunday school, Mesdames J. A. Allen and S. P. Stagg.

The quarterly meeting for Stanford will be held at 7:30 Friday night, 29th, 11 a. m. Saturday and 7:30 Sunday night; at McKendree Saturday night, 30th, and Sunday morning, May 1, at 11 o'clock. Dr. W. F. Vaughan will preside at both places.

Rev. Thomas Haley, of Lakeview, Ill., awoke to find a robber in his room. Instead of shooting him he plead with the rascal not to take his property, that it was a sin. The fellow was so touched that he walked out leaving the things he had gathered up.

In complimenting his members on an increase in attendance at prayer meeting, Elder F. W. Allen said in his sermon Sunday that he will never feel that he has done his full duty until he succeeds in getting all the members who can, to attend the Wednesday night's services.

NEWS IN THE VICINAGE.

John Waddle, son of Hayden Waddle, was seriously hurt by being thrown a horse. His entire left side is paralyzed from the effects.—Somerset Reporter.

The Harrodsburg Sayings says that S. C. Thompson, of Casey, was sent to the work-house for 15 days for using abusive language to a lady, after her husband had whipped him to within an inch of his life.

In two hours T. Z. Morrow, Jr., of Somerset, Commander of the Kentucky Division, Sons of Veterans, enlisted over 50 men to fight Spain. He will raise 200 volunteers and will ask that they be armed and sent to the front at once.

The Somerset Odd Fellows will celebrate the 79th anniversary of their lodge, Somerset No. 228, at the Gem Opera House there to-night. Speeches will be made, says the Reporter, by Messrs. T. M. Thatcher, O. H. Waddle, V. P. Smith and others.

U. S. gunboats captured three Spanish vessels Sunday, one of them worth \$400,000 and almost within the shadow of Morro Castle.

I was reading an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the Worcester Enterprise recently, which leads me to write this. I can truthfully say I never used any remedy equal to it for colic and diarrhoea. I have never had to use more than one or two doses to cure the worst case with myself or children.—W. A. It has been suggested that the turnpike riddlers go out to fight Spain, as they are already drilled and organized.

George Aldridge shot at John Harris and was held by Judge Brown to answer the charge of malicious shooting at the next term of the circuit court. Both parties are colored.

The many friends of Capt. Louis Landrum will be glad to learn that he has bright prospects for securing a highly honorable and lucrative position, but I am not at liberty to state the nature of the employment.

The word "If" is more in demand than any word in the English language in such expressions as—"if I were younger," or, "If I had better health," or, "If I had some one to stay with my family, I would go to war."

Senator Farris is at home, after an absence of several weeks in the interest of his house. James A. Beazley has returned from Cincinnati with his diploma from Clark's Embalming School, and is now prepared to engage in undertaking.

Gov. James B. McCreary and Hon. G. G. Gilmer are here and Hon. John B. Thompson is expected this Monday, morning and a general hand-shaking and a how of oratory will be the order of the day. It is reported that Col. T. P. Hill and Hon. R. C. Warren will also be here to make war speeches, and assist Capt. S. M. Duncan in raising his company. The drum and fife will also be heard, a number of fine horses will be on exhibition and the rain having stopped the farmer from plowing, a large crowd will be in town to look and listen. Hon. J. Mort Rothwell has been from home for several days, but he is expected to be at home to present his claims in the race for Congress.

The nocturnal meetings of the band of patriots, to which I referred some time ago, have culminated in gatherings to raise troops to defend the honor of our flag, free Cuba, and avenge the death of our sailors who went down with the Maine. S. M. Duncan, one of our gallant young men, has been authorized to raise a company of volunteers to engage in the war with Spain. On Saturday morning flaming posters, headlined, "Fall In," and containing the expression, "Remember The Maine," were distributed and the work of enlisting began. It is understood that John M. Farra, G. B. Swinebroad and Claude Wherritt will be lieutenants, the number to be enrolled being 100.

On Saturday night the Concert Band played in the court-house and eloquent speeches were made by Messrs. L. F. Hubble, R. H. Tomlinson, P. W. Spencer, Letcher Owsley and G. B. Swinebroad, it being boldly asserted that 1,000 Spanish lives must be given for each sailor that went down with the Maine and that Morro Castle must be leveled to the earth and a monument to the Maine reared on the spot. About 20 have been enrolled to this writing and, to-day, Monday, being county court day, it is believed that the requisite number will be enrolled.

The Christian Endeavor Convention was well attended, our people did all in their power to entertain visitors and a pleasant and profitable session closed Sunday night. I am indebted to Miss Alice W. Hudson, the competent president of the C. E., in this city, for notes of the different meetings. There were 50 delegates from Boyle county, 18 from Mercer and 13 from Lincoln. The following officers were elected for the ensuing year: President, J. H. Allen, Harrodsburg; Corresponding Secretary, Miss Margaret Allen, Harrodsburg; Recording Secretary, Miss Nannie Caldwell, Danville. The principal subjects discussed were: "Soul Winning," "Endeavor Work," "Source of All Power," "Good Citizenship" and "Tenth Legion." A sunrise prayer meeting was held at the Presbyterian church Sunday morning at 6 o'clock, which was well attended. Rev. W. O. Goodloe preached at 11 a. m. and in the afternoon a Prayer and Praise service was held, in which several took part. The convention closed Sunday evening with Consecration services and convention sermon by Rev. A. J. Arrieck. An interesting feature was the State C. E. Song, the Lord's Prayer and Doxology, given in sign language by three mutes from the D. & D. Institute, of Danville. The report of the D. & D. C. E. was, also, given in sign language by their delegate, a mute.

One-half rates to Lexington, Queen & Crescent Route, May 4th to 7th, good to return until May 10th, from all points in Kentucky. These rates account meetings of the Kentucky State Epworth League and the Kentucky and West Virginia Grand Council Commercial Travelers. Ask agents for information. W. C. Street car conductors in Washington ate onions and made themselves so offensive to passengers that the courts were appealed to and they were enjoined from eating the highly flavored and scented vegetable.

Of Lincoln a tale is extant and believable that when he was informed of Stanton's referring to him as a "d—d fool," he replied: "If Stanton says so there must be something in it. He's generally right."

"Hello Stanford! Please give us J. C. McClary, the undertaker." "That you Mr. McClary?" "Well you needn't send that coffin; the old town ain't dead yet, only been sleeping!" —Mt. Vernon Signal.

LINCOLN COUNTY'S FIRST VOLUNTEER

HENRY ROWAN SAUTLEY.

The INTERIOR JOURNAL furnishes the first volunteer for Lincoln county.

Mr. Sautley, who is a son of Judge and Mrs. M. C. Sautley, and has been in this office for four years, enlisted in Capt.

Sam M. Duncan's Co. A, First Ken-

tucky Volunteers at Lancaster, Sunday,

and on the advice of friends went to

Frankfort yesterday to ask Gov. Brad-

ley to commission him a lieutenant. He

inquired about the age of his father when

he went to battle for the Lost Cause

and if the son make as good soldier, his

parents and this office will have reason

to be proud of him. That he will do his

duty fully we are satisfied, for he has

proven himself a true and faithful em-

ployee; always on time and ready to do

anything required of him.

The second enlistment from this

county was Ashby McKee Warren, son

of Hon. and Mrs. R. C. Warren, and a

nephew of Gov. W. O. Bradley. He

will not be 21 till next August, but he

has shown himself worthy of his dis-

tinguished ancestry and will doubtless

make a gallant soldier. Capt. Duncan

is his uncle and he will be apt to take

good care of the young man. Lincoln

county is proud of him and Mr. Sautley

and hopes to see their names emblazoned

in the annals of fame.

WAR VESSELS.

HOW THEY ARE DESIGNATED.

A gunboat is a vessel usually under 2,000 tons displacement, with powerful guns.

A torpedo-boat destroyer is a small vessel, the purpose of which is well described by its name.

A squadron is a detachment of ves-

sels. A flying squadron is a detach-

ment of swift vessels.

A transport is a vessel for carrying

troops and may be of any pattern that

has capacity and speed.

A cruiser is the next largest war

vessel, and is usually iron-clad, though not always. It is faster than the bat-

tleship.

A battleship is the most powerful

of war vessels. It carries the heaviest

guns and has the thickest plates, but is

not so swift.

A monitor is a small vessel with one

or two revolving towers, which con-

tains one or two cannons. It is not

so swift but powerful.

A torpedo boat is a small but swift

vessel for shoving torpedoes against

other boats. They can travel 20 to 30

miles an hour.

A ram is a small iron-clad with a

steel nose that it thrusts into other

vessel's business and can sink the

largest vessels by punching holes in

their bottoms. The Kahtahdin is the

only one in the United States navy.

The U. S. battleships are named for

States, the cruisers for cities, the moni-

tors for Indian tribes, torpedo boats for

naval heroes, tug boats for Indian chiefs

and yachts for birds and insects. The

gun boats, however, are variously nam-

ed.

The Supreme Commander of the Mac-

cabees issues a proclamation to mem-

bers of the order, who desire to fight

Spain, guaranteeing to them and their

beneficiaries the full and unqualified

protection of the Order, as though they

had not so engaged, anything in the

Laws of the Order to the contrary notwith-

standing.

squirrels are so plentiful that young

ones are run over in the roads, and the

protection of the crops demand the

united efforts and hard work of the

farmers to exterminate them.

W. P. WALTON.

HON. J. B. THOMPSON,
Of Mercer, is a candidate for re-nomination
for Congress in the Eighth Congressional
District of Kentucky, subject to the action
of the democratic party.

HON. G. G. GILBERT,
Of Shelby County, is a candidate for Con-
gress in the Eighth Congressional District
of Kentucky, subject to the action of the
democratic party.

We are authorized to announce

HON. JAS. B. McCREARY
Of Madison County, a candidate for Con-
gress in the Eighth Congressional District
of Kentucky, subject to the action of the
democratic party.

OUR Thursday evening's dispatches ended with the announcement that the White Squadron, which is composed of 22 battleships, gunboats, cruisers, monitors and torpedo boats, had been ordered to sail to Cuba and blockade the entire Northern coast of that island. The order was promptly obeyed and by Friday afternoon it had been accomplished and the neutral governments of the world formally notified. There was great excitement at Havana, where the fleet was sighted, as an immediate bombardment was feared, but the same policy of procrastination and delay in order to give the enemy a chance seems to prevail there which disgusted the people with McKinley. The Spanish government made no response to the president's ultimatum, which it declined to receive from Minister Woodford and war began without a regular declaration.

When the American fleet was sighted at Morro Castle three shots were fired to warn the citizens of Havana of its approach and lights were ordered extinguished. These were the only shots fired, but the warships had to fire a number of shots before they could make the several Spanish vessels they captured have to. These captures have been principally confined to merchant ships, the report of the capture of others with soldiers being unconfirmed. The cable lines are under strict government censorship and there is difficulty in getting correct news quickly. The Spanish still affect an enthusiastic and belligerent attitude and indulge in great hurrah. They send out that there are 50,000 soldiers in Cuba impatient to greet the invaders and send them scurrying from the field. In the meantime, there is a money panic in Madrid and the rush of the banks to have notes exchanged for silver was only checked by the promise of the government to permit free coinage of the white metal.

In conformity to the authority given him by Congress, the president issued his proclamation Saturday calling for 125,000 volunteers and yesterday the governors of the various States issued calls for the organized companies, to be supplemented with additional volunteers if necessary. Col. Castleton and Gauthier were already under orders to recruit each company to its full strength of 100 men and they are doing so at a rapid rate, there being more applicants than places.

Yesterday's dailies contained the announcement that the bombardment of Havana would begin at dawn Monday and that the people were to be stricken but later dispatches did not confirm it. Morro Castle fired at the American fleet, which is four miles away, Sunday, but the fire was not returned. Two cruisers were dispatched to find out where the Spanish fleet is and to capture Spanish ships encountered on the way. The president announces that he has received a formal answer to his ultimatum from Spain, accepting it as a declaration of war.

THE resignation of Postmaster General Gary is the first break in Mr. McKinley's cabinet. It is given out that he retired on account of bad health, but a persistent rumor comes that he did not agree with the president's policy. The resignation was accepted and Charley Emory Smith, editor of the Philadelphia Press, was immediately appointed and confirmed. Newspaper men now pretty well control the post office department, the first assistant and several others having been taken from the fourth estate. The president does well to recognize newspaper men and thereby show his gratitude to those who helped him most.

POOR Old Josiah Patterson! The House decided Friday that he had no claims on the seat held in Congress by Editor Carmack, of Memphis, and the old fellow will now go home to be buried of no more forever. His only claim lay in the fact that he fought the regular democracy in the campaigns of 1896 and 1897, but that availed him nothing. Mr. Patterson can now spend his time wishing he hadn't made such a tarnation fool of himself.

THE board of trustees of the State Reform Schools will meet at the Phoenix Hotel, Lexington, next Friday at 3 o'clock p.m., when it is hoped that final action for the immediate creation of the reformatory will be made.

LONDON, April 25.—News from Cape Verde says the Spanish fleet sails today.

Gen. D. R. Collier is said to be slated for brigadier general.

Gov. Atkinson says he will command the Georgia volunteers in person.

Over 8,000 soldiers are in camp at Chieamaua.

A military guard is to be placed around the White House to protect the president.

The government has contracted with the Arkansas coal mines for 200,000 tons of coal in 60 days.

Torpedoes and mines are being placed in the Potomac river, below Washington, to protect the capital.

The president issued a proclamation Friday notifying all nations that the Havana harbor had been blockaded by his order.

The John B. Gordon Camp, Sons of Confederates, of Atlanta, offers its services to the president of the United States to fight with the regular troops.

A cargo of horses and mules which was about to be shipped from New Orleans for the use of the Spanish army in Cuba was seized as contraband of war.

The Spanish minister of war has been authorized to call out 80,000 reserves. Three vessels loaded with troops have left Cudiz for an unknown destination.

Secretary Alger has sent an officer to Maximino Gomez, to confer with the Cuban leader with reference to securing the co-operation of his forces in the Cuban campaign.

John Jacob Astor has offered to furnish and equip a battery of artillery for service against Spain, bearing the entire expense for men, cannon, uniforms and all equipment.

William F. Cody, widely known as "Buffalo Bill," offered his services and the services of his Indians and cowboys to the government to do service as a cavalry regiment against Spain.

The Puritan, Cincinnati, Machias, Nashville, Castine and Newport and the torpedo boats Foote and Winslow have been detached from Admiral Sampson's fleet to blockade Matanzas, Mael and Cardenas.

The island of Porto Rico pays Spain this year in taxes \$1,374,874, of which only \$650,000 is spent for the benefit of the native population. Of the 189,267 whites on the Island only 96,807 can read and write.

It costs money to transport subtliers. The government does not charter cars, but pays by the man, the price running from \$30 each trip; points in the near West to \$27.72 from Maine and \$17.85 from Old to Tampa, Fla.

The authorities in Porto Rico have taken steps to prevent the departure of refugees. Martial law is declared, and there is talk of a revolution. American citizens are in danger, as they are without protection.

The White Squadron has captured since Saturday four vessels flying the American flag, among them the Catalina, a huge liner trading between New Orleans, Havana and Spanish ports. She had a crew of 60 men and the prize is worth \$1,000,000. The Miguel Doyer, another of the prizes, is worth \$150,000.

The Colonial government has published a manifesto protesting against the intervention of the United States "at the moment of establishment of the new regime and political liberty, and when Cuba, for the first time, was going to elect a Colonial Parliament, replacing Spain's sovereignty in Cuba with autonomy."

The president has issued an order against privateering and the Spanish government announces that it will not issue letters of marque for privateering, and will treat American privateers as pirates; that it will utilize numerous mercantile vessels as auxiliary fleet, and that it will exercise the right of search both by regular and auxiliary warships.

The first Spanish prize was the steamer Buena Ventura, from Pensacola, Miss., for Rotterdam, with lumber. The Nashville fired a blank shot, which the Spaniard ignored. This was followed by a shot from a six pounder. The Buena Ventura then surrendered, with her crew of 20 men. The Nashville towed her to Key West, where the people went wild with enthusiasm.

A dynamite shell exploded under water within 200 feet of a mine destroying it. The policy of our navy in entering any harbor where mines are known or suspected to lie in place, will be to launch dynamite torpedoes to each possible line of mines, blow them all up then proceed. Forratt said: "Go on; dam the torpedo!" Our officers will now more wisely say: "Destroy the torpedo with dynamite and then go on."

England declares neutrality and orders American vessels to leave her ports within 48 hours, holding that war has existed since Woodford's dismissal. This will relieve the country of any embarrassment that might grow out of Spain's contention that the capture of the Buena Ventura was a violation of international law, because it was effected before the time named in the President's ultimatum had expired.

In her declaration of war, Spain says that a neutral flag will protect all merchandise that is not contraband of war; goods of a neutral power not contraband will be respected even if carried under the enemy's flag and that, for the purpose of capturing ships belonging to the enemy and confiscating goods and contraband of war, Spain will exercise the right of searching vessels on the high seas. Five days are given American vessels to get out of Spanish ports.

The war revenue bill provides for an increase of the tax on beer to \$2 a barrel, on manufactured tobacco 12c, cigars \$4 per 1,000, cigarettes \$1, and tobacco dealers will have to pay a license of \$12 to \$18. All patent medicines are to be taxed, chewing gum 1c a package, ginger ale and mineral waters 2c a pint, all checks and evidences of draft will have to be stamped and tea and coffee will have to pay 10 and 1c a pound respectively.

Cuba is 750 miles long, averages about 50 broad and contains 43,229 square miles. It is largely mountainous and hilly, but the plains are well watered and very fertile. Sugar and tobacco are its chief products tho' tropical fruits and crops are largely raised. Mahogany is one of its valuable timbers. Hurricanes sometimes cause widespread destruction, one in 1870 killing 2,000 persons. Earthquakes are frequent. Slavery was abolished in 1880 though 65 per cent of its population is Negroes.

The army bill passed by Congress removes technical conflicts between the regular army and the national guards. It divides the army into two parts, the regular and volunteer; the former to be maintained continuously, the latter only in times of war. Governors of states are authorized to appoint officers of the guards in their own states. The president has supreme jurisdiction over all. The regular army is to be continued at the same number as at present 28,000. The volunteer army is estimated at 12,000,000 men. A company is to consist of 84 instead of 100 men.

The Puritan, Cincinnati, Machias, Nashville, Castine and Newport and the torpedo boats Foote and Winslow have been detached from Admiral Sampson's fleet to blockade Matanzas, Mael and Cardenas.

The island of Porto Rico pays Spain this year in taxes \$1,374,874, of which only \$650,000 is spent for the benefit of the native population. Of the 189,267 whites on the Island only 96,807 can read and write.

WHERE OH, WHERE WAS HE?—During the momentous night when the Senate and House were considering the war resolutions, Mr. Davison did not vote a single time. He was doubtless off asleep, as he is accustomed to keeping early hours. At any rate he can have space in this paper to tell the people where he was.

A LEGATEE.—Ed Wilkinson, the bacher, tells us that the will of his uncle, Harvey Dean, who died at Bradfordsville, has recently been probated. BAKEMAN KILLED.—Ernest L. Painter, son of George E. Painter, of Brodhead, was run over and killed by freight train No. 52 at London Saturday night. The train left Corbin at 5 o'clock Saturday evening with Painter as one of the brakemen, but when it stopped at Pittsburg it was discovered that he was not on. The engine went back and found the body at the South end of the London yard mangled almost beyond recognition. It is supposed that he fell from the train. Painter was a splendid young man and a member of one of the best families in Rockcastle.

BAILEY.—After an illness of five weeks Mr. H. C. Eaton died Sunday afternoon at 5 o'clock at the home of his brother-in-law, C. R. Cuteman, aged about 60. Seven weeks ago he began hiccoughing, but for nearly two weeks kept at work. He began to grow weak, however, and was compelled to take his bed, which he never left. During the entire seven weeks he only stopped hiccoughing for short periods and a greater portion of the last five weeks he was unconscious. Mr. Eaton was an L. & N. freight conductor and was held in high esteem by the company. He was an unusually clever man and was popular with all classes. He was a member of the Order of Rithway Conductors and held \$3,000 insurance. Besides a wife he leaves three children, whose cup of sorrow is overflowing. Only a week ago Mrs. Eaton buried her son, Odrey, a bright little fellow, and now she is made a widow. Great sympathy is felt for her and her children, the latter too young to realize their loss. At 2:30 this afternoon the funeral will be preached at the Methodist church by Rev. W. S. Grinstead, after which the Knights Templar will take charge of the remains and lay them to rest in Buffalo Cemetery. Mr. Eaton was an Old Fellow.

TWENTY beautiful maidens, under the direction of Miss Glascrook, are rehearsing daily for the Old Maid's Convention, to be given at Walton's Opera House the night of the 3d.

AS usual Mr. Frank S. Davidson gave an excellent entertainment with his "Old Farmer Hopkins Co." He is a splendid comedian and is well supported, while the special scenery that he presents is superb. Unfortunately he carries no brass band, preferring to give his show in the theatre, so the crowd usually caught by the beating of the drum failed to materialize and the attendance was very light. Mr. Davidson has always given our people a good show and deserved better treatment.

A PERILOUS JOURNEY.—As passenger train No. 23 pulled out from here yesterday a man was discovered lying under the rear cars on the track. Train Dispatcher W. F. Sheridan, who was on the rear platform, pulled the bell and the fellow came crawling out and made tracks down the railroad. A reporter of this paper ran him down and under the impression that he was an officer the tramp talked mighty prettily. He said that he was from Laurel County and that his name was Henry Johnson, that he had been to Baltimore "mastingabout" and that he had been fighting his way back in the way he was discovered. He said that he left Parkersburg, W. Va., Sunday morning on the tracks of a fast flying Baltimore & Ohio train and got to Cincinnati that night, making the trip in the same way to junction City last night on the Cincinnati Southern. He tramped from here, but said he didn't expect to walk any longer than a train came along.

LAWRENCE.—A good crowd attended court yesterday but not much trading was done. The demand for cattle was not up to a month ago. Lyon & Allen bought 15 600-pounders at 4½ and sold them later at \$1 premium. Calves sold at \$18 to \$22.

THE trial of George Bowsey for the murder of the old German, Francis Kizer in the court-house at Danville on the 18th, began Saturday and Commonwealth's Attorney J. S. Oswald, Jr., who spent Sunday at home, said that the prospect was either for a hanging or a life verdict. The defendant makes three excuses for the killing. That Kizer had abused his (Bowsey's) wife, that he had shot his horse and that when he saw him on the fatal day Kizer threw his hand into his back pocket and looked "savageous" at him. The proof, however, was that another German had Kizer by the hand leading him off and that the two of the five shots fired by Bowsey were in his victim's back. From all we can learn the case is one calling for the severest and most condign punishment. The pistol with which Bowsey did the murder was the one his father, George Bowsey, had when Frank Ellis killed him. In connection with the matter, Mr. John J. McRoberts tells us that although the elder Bowseys figured in many scuffles he never knew of their killing anybody, usually getting killed themselves in their rows. George Bowsey is the first of the family that he knows who has killed a man. Jasper Bowsey, who was taken from the jail here and hung by a mob years ago, was not accused of murder, but of wounding a man and being an all-around bad character.

THE treatment of Old John Sherman by the republicans show that they are indeed ingrateful. In order to carry out a dicker by which Hanna was to be made Senator from Ohio, they made the old man resign that position with the bait of being made Secretary of State. In the Senate he could have been a harmless figure-head, but as Secretary of State his failing mind has made him thoroughly incompetent to perform the duties, and he has on more than one occasion brought the administration into ridicule. The old fellow was fired yesterday and turned out to die, after being a horse in his day and serving his country well.
